### **AUTHOR'S BIOGRAPHY**

Katy Perry, original name Katheryn Elizabeth Hudson, (born October 25, 1984, Santa Barbara, California, U.S.), American pop singer who gained fame for a string of anthemic and often sexually suggestive hit songs, as well as for a playfully cartoonish sense of style.

Katy Hudson was raised in southern California, the middle child of two itinerant born-again Christian ministers. Nonreligious music was forbidden in the Hudson household, and she grew up singing church hymns and gospel tunes. As a teenager, she learned to play the guitar and sought a musical career in Nashville with a Christian record label, but her debut album, the gospel-influenced *Katy Hudson* (2001), sold poorly. By then, however, Hudson had found new musical models in such rock artists as Freddie Mercury and Alanis Morissette, whom she had discovered through friends. She soon moved to Los Angeles to pursue success in the secular music realm, adopting her mother's maiden name, Perry, to avoid confusion with the actress Kate Hudson.

Perry's initial efforts at mainstream stardom were fruitless, with two separate record labels signing and subsequently dropping her before any material was released. In 2007, however, Capitol Records put out Perry's EP *Ur So Gay*, which attracted modest attention for its cheerfully flippant title track. She made a greater splash several months later with the single "I Kissed a Girl," an assertive ode to sexual curiosity backed by a hard-edged electro-pop beat. The song quickly stirred controversy, as some critics derided it for promoting same-sex relations and others charged that the racy scenario it depicted catered to male fantasies of female sexuality. Nevertheless, the combination of titillation and polished melodicism helped "I Kissed a Girl" become a number one hit in multiple

countries, powering sales for her album *One of the Boys* (2008). With its bouncy, sharp-tongued second single, “Hot N Cold,” also proving popular, the album—much of which Perry wrote herself—eventually registered sales of more than one million copies in the United States.

By late 2009 Perry had become frequent tabloid fodder, largely because of her quirky, vividly coloured fashions—which borrowed variously from 1940s pinup models, burlesque performers, and the *kawaii* (“cute”) cultural aesthetic of Japan—as well as her high-profile relationship with English comedian Russell Brand, to whom she was briefly married (2010–12). After recording the stripped-down live album *MTV Unplugged* (2009), Perry returned to the studio. The resulting release, *Teenage Dream* (2010), which provided a broader showcase for her full-throated voice, was even more commercially successful than *One of the Boys*, spawning such hits as the warm-weather frivolity “California Gurls” (featuring rapper Snoop Dogg) and the inspirational “Firework.” When “Last Friday Night (T.G.I.F.)” reached the top of the Billboard Hot 100 chart in mid-2011, Perry tied Michael Jackson’s record of five number one songs from a single album. She maintained her grip on the mainstream with her next release, *Prism* (2013), which produced, among other hits, the anthemic “Roar.” Her 2016 single “Rise” was featured in television coverage of that year’s Olympic Games in Rio de Janeiro. Perry’s fourth studio album, *Witness* (2017), more introspective than her earlier work, was less well received. She returned to mainstream pop with the empowerment-oriented *Smile* (2020).

While critics often disparaged Perry’s songs as vapid, the music industry was generally kinder, rewarding her with several Grammy Award nominations, including album of the year for *Teenage Dream*. In 2011 she made her big-screen acting debut, providing the voice of Smurfette in the film *The Smurfs*, and she reprised the role for a 2013 sequel.

#### *Circle the Drain*

By Katy Perry

1

1. This is the last time you say
2. After the last line you break
3. It's not even a holiday, nothin' to  
celebrate
4. You give a hundred reasons why
5. And say you're really gonna try
6. If I had a nickel for every time
7. I'd own the bank-bank-bank-bank
8. I thought that I was the exception
9. I could rewrite your addiction
10. You could've been the greatest
11. But you'd rather get wasted
12. You fall asleep during foreplay
13. 'Cause the pills you take are more  
your forte
14. I'm not stickin' around to watch  
you go down
15. Wanna be your lover, not your  
fuckin' mother
16. Can't be your savior, I don't have  
the power I'm not gonna stay and  
watch you circle the drain
17. Watch you circle the drain, watch  
you circle the drain

2

18. You say it helps you write your  
rhymes
19. Whatever helps you sleep at night
20. You become what you despise
21. A stereotype-type-type-type
22. You think you're so rock 'n roll

3

23. But you're really just a joke
24. Had the world in the palm of your  
hands
25. But you fuckin' choked
26. Should've been my teammate
27. Could've changed your fate
28. You say that you love me
29. You won't remember in the  
morning
30. You fall asleep during foreplay
31. 'Cause the pills you take are more  
your forte

you go down

### SONG LYRICS BY KATY PERRY *TEENAGE DREAM*

#### *Last Friday Night (TGIF)*

**By Katy Perry**

Last Friday Night (TGIF) tells the story of a crazy party of teenagers on a Friday night and ends up being very messy. In this story, there are an innocent girl and other supporting characters, the main character is a girl who does not act like themselves but as their alter egos. When that girl wakes up, she is stunned because in her room there were already several strangers and a bare-chested man right beside her. Then she flashes back to when she was enjoying herself in her room playing a game but was interrupted by loud music from her neighbour's house who was partying. Then, she went to her neighbour's house with the intention of rebuking her neighbour but instead, she joined the party with her neighbour's friends. It's about "Last Friday night"! The party takes place on a Friday associated with weekend celebrations. The song starts with someone (Katy Perry's ego) waking up - looking around and seeing what's left of the party is, obviously, crazy. He knew that he would be in trouble after finding "last night's pictures ended up online" but at the same time, he didn't care where it was a fun night.

#### *Peacock*

**By Katy Perry**

This is a song about a Girl fantasizing about the man of his dreams. She wants to know how it is to be head over heels over a man that she's wishing he'd appear to sweep her off her feet already. The song showed so much innocence with the way she described love as something so amazing as if she doesn't know the hurt that comes with love. A girl really hopes the boy'll show her what he hides "I wanna see your peacock, cock, cock". "Peacock" is perhaps the most egregious example of the entirely unsubtle double entendre. "Come on baby, let me see, what you're hidin' underneath". Telling the mischief and mischief of a woman on a man, challenging a man to show something beautiful by saying "don't be a shy kind of guy, I'll bet it's beautiful, come on baby let me see what you hidin' underneath".

#### *Circle the Drain*

**By Katy Perry**

This song tells the story of a couple, where a man is still addicted to drugs and often gets drunk. And a girl (partner) wants to control or change her partner to be what she wants and not do what she is doing now. A man only promised sweetly that he would stop, but never completely changed, so this woman wanted to leave him. one girl went on to say that you can't change someone unless they want to be changed. She liked him a lot, but he wouldn't get off drugs, so she told him he was circling the drain, meaning he was going down, and he was

having to take care of him. She finally broke it off with him because she didn't want to be in love with a drug addict.

#### *The One That Got Away*

**By Katy Perry**

“The One That Got Away” tells the story of someone in their old age reminiscing the love they once shared when they were younger – intense and fun – until they decided to opt for a luxurious, comfortable life. The first verse is about the relationship and the little things that shaped it - meeting the summer after high school, making out in his mustang, getting matching tattoos, and climbing up to the roof with their parents liquor talking about what their future would be like - but they did not plan it to end so soon, something in their relationship went wrong. In the chorus it gives us hints as to what happened - "In another life, we'd keep all our promises, I'd make you stay, so I don't have to say you were the one that got away". I think he promised her that he'd always be hers, then tried to leave her, and she let him - but later regrets doing so.

#### *Who Am I Living For?*

**By Katy Perry**

This song tells about believe that someone knows deep inside that has an amazing calling on their life and opportunity to influence this generation with eternity. "It's never easy to be chosen, never easy to be called." Someone knows the path that is supposed to take. "I know one spark will shock the world" If someone turned around it would be such powerful testimony to the redeeming love of God. Overall, the entire song's meaning is about someone's struggle between their goal for fame and their inner morals. Each part of her life hinders the other. Soemone in the song may be an image of celebrity and sexiness, but they rests their true faith in God. To portray these thoughts and feelings, they uses these allusions and biblical references to describe and illustrate their inner struggle.

#### *Firework*

**By Katy Perry**

The lyrics of the song Firework have a very deep and touching meaning, in the lyrics intend to convey the message that even though everyone has flaws, they are still valuable. Never listen to people who are always condescending and insulting, the human just have to get up and shine like a light that shines in the night, and show them your greatness. It is true that we are the owners of our lives and how the world sees us should be an extension of how we see ourselves. One should not succumb to peer pressure from social media or acquaintances if

the pressure causes negative emotions. That said, loving ourselves and being healthy should be one of the top priorities in our lives.

#### *Teenage Dream*

**By Katy Perry**

This song tells a girl has fallen in love with 'her missing puzzle piece'. This love they share is so perfect and pure that it takes her back to her teenage years when she'd sit in her room and dream about meeting her prince charming. This song hints at having sex with someone for the first time (Let's go all the way tonight). When put into the context of being a 'teenage dream' it may suggest that she feels as if she's losing her virginity again. The one thing about this song that sticks out is the fact that it is adult and also innocent. The lines 'We can dance until we die/ you and I will be young forever' do have an obvious double entendre in them but they have the concept of never growing up in there. This has connotations of a Peter Pan type world where her and her lover are stuck as teenagers never growing up. The song also has references to a typical Californian teen's life, it talks of getting drunk on the beach, an activity that is widespread amongst the Californian youth. This song has so much to it. It has the ability to seduce and excite, it can be adult or innocent. This song embodies love and the teenage condition in a way that hasn't been done before.

#### *California Gurls*

**By Katy Perry**

The lyrics of this song and the title are all about California, and give the impression that all the girls from this state are what people would see as ideal women, what men would see as attractive. Some of the lyrics of this song are sexual in nature and use a lot of sexual innuendo, and from this it can be said that the song targets teenagers and young adults. Teenage girls who want to do all kinds of new things they thought would never come second, and they did whatever they liked. By setting her goofy sexy romps in Candyland, she encourages the concept that sex is a game, not something serious reserved for "grown-ups". One fond memory she has is sneaking out of church camp to have sex when she was fourteen or so. Sexual rebellion against her oppressive, religiously fundamentalist, tongue-speaking parents changed her life for the better. She therefore believes she is helping young girls by teaching sexual rebellion at a young age.
