

## DAFTAR PUSTAKA

- Kumar, Ankesh, Kanhaiya Kumar, Suman Saurav dan Siva Sankur Raju.2016. *Study of Physical, Mechanical and Machinability Properties of Aluminium Metal Matrix Composite Reinforced with Coconut Shell Ash particulates*.GunupurIndia.Student,Dept. of Mechanical Engenering, GIET.
- Attar, Sallahauddin, Madeva Nagaral, H N Reddappa and V Auradi.2015. *A Review on Particulate Reinforced Aluminum Metal Matrix Composites*. R&D Centre, Department of Mechanical Engineering, Bangalore Institute of Technology, Bangalore-560004, Karnataka, India.
- Kittali, Praveen, J. Satheesh, G. Anli Kumar, And T. Madhusudhan.2016. *A Review on Effects of Reinforcements on Mechanical and Tribological behavior of Aluminum based Metal matrix composites*. P.G. Scholar, Mechanical Department, SJB Institute of Technology, VTU, Belagavi, Karnataka, India 2Professor, Mechanical Department, SJB Institute of Technology, VTU, Belagavi, Karnataka, India.
- G C Patel, Manjunath, Robins Mathew, Prasad Krishna, Mahesh B. Parappagoudar.2014. *Investigation of squeeze cast process parameters effects on secondary dendrite arm spacing using statistical regression and artificial neural network models*. Department of Mechanical Engineering, National Institute of Technology Karnataka, Surathkal-575025, India.
- Dhanashekar. M , V. S. Senthil Kumar, 2014. *Squeeze Casting of Aluminium Metal Matrix Composite- An Overview*. Procedia Engineering 97 (2014) 412-420. Chennai, India.
- Alguar, Veerabhadrapa , Balaraj V, Lori Nagaraj.2015. *Effect of T6 type heat treatment on the Mechanical characterization of Al6061 particulate composites*. Department of Industrial and Production Engineering, Rao Bahadur Y Mahabaleswarappa Engineering College, Bellary, India.
- Rahman, Md. Habibur, Dr. H. M. M. A. Rashed.2014. *Effect of Magnesium on Wear Characteristics of Silicon Carbide and Alumina Reinforced Aluminum-Metal Matrix Composites*. Dept. of Materials and Metallurgical Engineering, Bangladesh University of Engineering and Technology, Dhaka, Bangladesh.

- Surdia Tata dan Saito Shinroku, 1999. “*Pengetahuan Bahan Teknik*” PT. Pradnaya paramita.
- Susanto, Juli, Harjo Seputro, Edi Santoso.2016. *Ananlisa Pengaruh Variasi Media Pendingin dan Waktu Aging Pada Perlakuan Panas T6 Terhadap Struktur Mikro Komposit Aluminium Abu Dasar Batubara*. Program Studi Teknik Mesin, Fakultas Teknik, Universitas 17 Agustus 1945 Surabaya.
- Kumar. G. B. Veeresh, C. S. P. Rao, N. Selvaraj. M. S. Bhagyashekar, 2010. *Studies on Al6061 Metal Matrix Composites*. Research Scholar, National Institute of Technology, Warangal, (A.P), India & Department of Mechanical Engineering, S B M Jain College of Engineering, Jain University.
- Kirono, Sasi, Eri Diniardi, Isgihardi Prasetyo. *Analisa Perubahan Dimensi Baja AISI 1045 Setelah Proses Perlakuan Panas*. Jurusan Mesin, Universitas Muhammadiyah Jakarta.
- Tjitro, Soejono, Firdaus.2001.*Pengecoran Squeeze*. Fakultas Teknologi Industri Jurusan Teknik Mesin – Universitas Kristen Petra. Jurusan Teknik Mesin – Politeknik Negeri Sriwijaya
- Nayiroh, Nurun. 2013. *Teknologi Material Komposit*.
- Xue. J, Y. F. Han, J. Wang and B. D. Sun, 2013. *Study On Squeeze Casting Of an in situ 5 vol.-%TiB<sub>2</sub>/2014 Al Composite*. State Key Laboratory of Metal Matrix Composite, Shanghai Jiao Tong University, Shanghai 200240, PR China.
- Wiryanto Dewobroto, 2016.Studi karakteristik baut mutu tinggi. Fakultas Teknologi Industri Jurusan Teknik Mesin – Universitas Pelita Harapan.
- Puji Kumala Pertiwi, 2015. Uji Densitas dan Porositas pada batuan dengan menggunakan neraca O Houss dan Neraca Pegas. Fakultas MIPA Jurusan Teknik Fisika – Institut Teknologi Sepuluh Nopember (ITS).
- Sigit Pratama, 2017. Uji Kekasaran Permukaan (Roughness Tester) SJ-301. Fakultas Teknik Jurusan Teknik Mesin – Institut Teknologi Adhi Tama Surabaya (ITATS).
